AGREEMENT TO RULES AND REGULATIONS

- As a representative of my family, I hereby confirm that I have reviewed, accept and agree to all Cedarmill rules and regulations. The Cedarmill Board reserves the right to add or modify rules as required. Changes to rules will be posted on the Cedarmill website and at the pool area.

AGREEMENT TO USE OF PHOTOGRAPHS/VIDEO

Cedarmill uses event pictures and potentially movies in various communication and decoration vehicles during the course of the year.

- I approve the use of any photos that may include me, my family and any guests in authorized publications (e.g. Cedarmill website, newsletters, email communications, posters, etc.).
- I do NOT authorize the use of any photos that may include me, my family and any guests in authorized publications. I understand that it is the responsibility of family owners and/or their guests to inform any photographer of their wishes.

AGREEMENT TO E-MAIL COMMUNICATIONS

Cedarmill relies on email to communicate to our owners about owner-relevant information, events and activities taking place during the year, and other owner notifications.

Privacy Policy and Disclaimer:

The Cedarmill Board is considerate of your privacy. As such, the board does not authorize the distribution of email addresses to owners. This does not preclude owners from using known email addresses of other owners, and neither Cedarmill nor the board can be held responsible for the sharing of email addresses outside of official Cedarmill communications. The Cedarmill board takes intentional steps to "blind copy" emails to its owners.

- I approve the use of e-mail to provide my family with Cedarmill communications and information about events and activities as specified in the e-mail opt-in options in my registration choices.
- I do NOT approve the use of e-mail for communication from Cedarmill. All communication should be done via US mail or phone. By choosing this option, I accept that I may not receive all communications from the Cedarmill board as intended, as they may not be available in other forms.
